

INDUSTRIAL, COMMERCIAL AND ARCHITECTURAL LIGHTING

The CROSSROADS LED™ Commercial and Industrial retrofit luminaires are designed for high output exterior and interior illumination.

Utilizing the latest in compact high flux, multi-watt LED technology, the CROSSROADS LED™ Commercial and Industrial retrofit luminaires are ideally suited for retrofitting existing recessed can lights as well as other conventional light sources. With a light output exceeding the original incandescent or fluorescent lighting technology and a demonstrated energy savings of over 70%, the retrofit kits are practical and logical solution to reducing your maintenance and energy cost while increasing your bottom line.
